The defense requested this information initially by email to Mr. Van Grack and Ms. Ballantine on Friday, October 11, 2019. The government did not reply to the email of October 11, but it did reply in response to the notice of our Motion on October 15, 2019.

This information is material, exculpatory, and relevant to the defense of Mr. Flynn, and specifically to the "OCONUS LURES" and agents that western intelligence tasked against him likely as early as 2014 to arrange—unbeknownst to him—"connections" with certain Russians that they would then use against him in their false claims. The phones were used by Mr. Joseph Mifsud.

Mr. Flynn is entitled to this information under *Brady v. Maryland*, 373 U.S. 83, 87 (1963). *Brady*'s mandate is fundamental to Due Process and crucial to ensure that prosecutors fulfill their obligation to seek justice rather than convictions. The rule of *Brady* does so "[b]y requiring the prosecutor to assist the defense in making its case," and in that respect "the *Brady* rule represents a limited departure from a pure adversary model." *United States v. Bagley*, 473 U.S. 667, 675 n.6

Exactly who would have ordered the Australian diplomat, Australian Foreign Minister, Alexander Downer to surreptitiously record his conversation with [@GeorgePapa19?](#) ...

**George Papadopoulos** @GeorgePapa19 · 8h

We already know that Downer was recording my conversation with him. Who ordered him to? One of the many questions to ask during the July 17 testimony.

Whoever is keeping Mifsud in hiding must have a very serious reason for doing so. I feel terrible for the guy. He's underground, his wife left him, he's on someone's payroll to keep quiet. Even that bozo Stefan Halper is coming up for air to speak at a spy conference this month.

2. Never before has such a document and evidence-trail existed in the history of our nation. Lying. Leaking. Fraudulent FISA warrants. Conspiracy? Will Durham, Barr and Co save our Republic? [theconservativetreehouse.com/2019/07/01/cia...](http://theconservativetreehouse.com/2019/07/01/cia...)

3. "In synergy between DS intel and their media agents, the CIA, DOJ & State Dept have specific outlets assigned to PR. DOJ & FBI leak their needs to Slim's NYT, State to Zucker's CNN; and Bezos' WaPo comes out 1st in defense of the CIA, a pattern remarkably same for yrs."

## CIA Seems Highly Concerned – Washington Post Reports on Sketchy Joseph Mifsud...

Posted on [July 1, 2019](#) by [sundance](#)

In the synergy between the U.S. intelligence apparatus and their media agents, the CIA, DOJ and State Department have specific outlets assigned to public relations.

A long tracked history and pattern reflects the DOJ and FBI leak their needs to the New York Times. The preferred outlet for the U.S. State Department is CNN; and the Washington Post generally comes out first in defense of the CIA agenda. This pattern has been remarkably consistent for years.

So against a backdrop of looming revelations about the intelligence community and their activity in the 2016 election; and suddenly The Washington Post, seemingly out of nowhere, pushes an article intended to diffuse the issues around western intelligence asset Joseph Mifsud; we can reasonably assume something is happening in the background that has officials in the CIA worried about exposure and their image.
